

The Centre in June: Czech Summer Courses for Children

Dear friends,

In our monthly newsletter you'll find out about the events we're preparing for you in June. We've started the registration for new Czech summer courses for children and we're preparing adaptation-integration courses in five languages.

Smile, please!

Our team is always growing and we're gaining new support in order to give you the highest quality service. There are quite a few of us, but we still fit in one photo. So, we've made use of the summer weather for group photos. You can see how good we look in the newsletter header.

Czech for Children

In August we will open summer courses for children. You can register your children now. The courses will be intensive and will last 12 days (from 15 to 30 August). We are opening groups children of pre-school age (5-7 years), younger school age (6-10 years), older school age (11-15 years) and teenagers (15-18 years).

Welcome to the Czech Republic

The adaptation-integration courses will help you learn about Czech cultural traditions and find your way around Czech society. The courses are mandatory for some foreigners from third countries. In July and August you can participate in the course in English, Ukrainian, Russian, Serbian, Vietnamese or Turkish.
